

Forest Animals Song

Deep down in the Forest where the creatures like to dwell,
Something stirs among the ferns. Who is it? Who can tell?

It's only us, it's only us, you needn't be afraid,
Don't make a fuss, no need to rush, you're welcome here to stay.

Badgers, foxes, squirrels, too, it's better than a zoo,
Bambi's signing autographs or else he'd be here too!

It's only us, it's only us, you needn't be afraid,
Don't make a fuss, no need to rush, you're welcome here to stay.
